Pool Cleaner G25

Follow us

+info:

www.golfinho.eu

DESCRIPTION

The G25 pool cleaner represents a new generation of robots for public swimming pools. Specifically designed for commercial and school pools up to 25m in length. All you have to do is place the robot in the pool and turn it on. Includes 30m floating cable and aluminum transport trolley.

FUNCTION

The G25 Pool Cleaner effectively cleans the bottom and walls automatically. You can also carry out cleaning manually, with the help of the wireless controller.

Effective cleaning of the bottom and pool walls. For pools up to 25mt.
