

# Kickboards

*Made of Retifoam*

## Rectifoam

Golfinho Sports Kickboards are made from Rectifoam. This is a foam made from cross-linked, closed-cell PE with a uniform structure.

Due to the quality of its material, it can be in permanent contact with human skin (it is easily sanitised, antibacterial, hypoallergenic and non-toxic). It has excellent resistance to impact, abrasion and tearing

### Features:

 Density = 50 kg/m<sup>3</sup>

 Does not absorb water

 In accordance with EN71

 High buoyancy

 High durability

 ROHS

 Reusable and Recyclable

 Chemical resistant
